Policies and Conditions

The primary purpose of the OSFA is to provide financial assistance from available resources, in accordance with governing regulations. We assume parents have the first obligation to provide for the education of their son/daughter. The second obligation falls upon the student to contribute to his/her own education from personal assets and earnings, including appropriate borrowing against future earnings. Within available resources, NGCSU attempts to meet the financial need of the student. The total financial aid awarded

to a student shall never exceed the established college cost budget (Cost of Attendance).

1. All awards are based on full-time attendance unless otherwise indicated on your award letter. If you register for fewer hours, your award may be adjusted, delayed, and/or canceled.
2. The Business Office disburses all financial aid funds through your student account. If your total award is not sufficient to pay all your fees, you must be prepared to pay the difference. NGCSU is not responsible for the late arrival of funds from outside sources, including student loans and private scholarship funds. If these funds have not arrived at NGCSU by the bill due date, you should be prepared to pay your fees with personal funds. When the funds arrive, they will be disbursed to you, as required.
3. All awards are subject to the availability of funds through institutional, state, and federal levels.
4. If a student:
 - is not permitted to return to NGCSU either because of grades or an outstanding obligation to the Business Office, at the beginning of an academic term, the financial aid award will be voided.
 - fails to register, withdraws or does not pass a single course for any semester during the award period, the financial aid award may be canceled.
 - reduces or withdraws from courses, all or a portion of the awarded funds may have to be repaid/refunded by the student.
 - is placed on academic probation, expulsions, or is notmaking satisfactory progress, as determined by NGCSU, the financial aid award will be voided.
5. Students are required to **immediately report** to the OSFA:
 - any changes of enrollment, financial, residential, and marital status.
 - any resources, such as private scholarships, not listed on the award letter.
6. Financial Aid awards may be adjusted due to status or resource changes.

7. Financial Aid awards will be voided if:
- an error is made in determining eligibility for aid or the amount of aid. If discovered after disbursement, the disbursed amount will have to be repaid.
 - incorrect information is revealed on the application, Student Aid Report, or other information provided to NGCSU. Intentional false statements or misrepresentations on any application materials may subject filer to a fine or imprisonment, or both, under provisions of the U.S. Criminal Code.

Policy on Return of Title IV Funds

Federal financial aid funds are awarded with the expectation that students will complete the entire period of enrollment. Students "earn" a percentage of the funds they are disbursed with each day of class attendance. When a student, who has received federal financial aid funds (Title IV Funds), leaves school before the end of the semester or period of enrollment, federal law requires NGCSU to calculate the percentage and amount of "unearned" financial aid funds that must be returned to the federal government. Once a student has completed more than 60% of the enrollment period, students are considered to have earned all funding received. If a student did not earn a passing grade in any of his/her coursework, the Title IV calculation must be done. This calculation may have the effect of requiring the student to repay funds that have already been disbursed to the student. Students are encouraged to meet with their financial aid counselor prior to making the decision to withdraw from school. For further information and a full worksheet, contact the Office of Student Financial Aid. There is also an example available on our website.

William D. Ford Federal Direct

Loan Program

These are loans funded from the U.S. Department of Education (DOE), but processed through the OFSA. The approval and loan amounts are based on federal/state regulations. Funds are electronically submitted by the DOE to your NGCSU student account for disbursement. The student must maintain eligibility to receive a disbursement by NGCSU including maintaining at least half-time enrollment.

Cancellation prior to the acceptance of the first disbursement constitutes a “no loan” record with all fees and accrued interest canceled.

There are two types of Stafford Loans. The type of loan you are eligible for is determined from the information that you provided on your FAFSA.

Federal Subsidized Stafford Loan

A need-based loan made to students. It is interest free until after graduation (or withdrawal from college) First payment due the 7th month after graduation/withdrawal from college or if you do not maintain at least half-time status for 6 months. The interest rate is a fixed rate 3.4%.

Federal Unsubsidized Stafford Loan

A loan to students not based on “need”. Same as subsidized except this loan is not interest free. The interest rate is a fixed 6.8%. Interest accrues all during college enrollment.

Important information for students borrowing funds:

- Students are encouraged to budget wisely and borrow conservatively. Remember: **ALL** student loans **must be repaid by the borrower.**
- All student borrowers must complete Exit Counseling before graduation, transfer, or withdrawal. This may be completed by one of the same methods as the Entrance counseling.
